

APPOINTMENT RELEASE

April 2008

H.S. Pipeequipment appoints new Sales Engineers in the North East of England

To strengthen their ongoing commitment to providing unrivalled levels of quality and service, HS Pipeequipment (HSP) the specialist distributor of valves to the Oil/Gas and Petrochemical industry is delighted to announce the appointments of Dennis Skelton and Robin Glew as Sales Engineers to there Teesside operation.

These appointments will help to support and maintain HSP's position as the leading distributor of valve packages to the Oil and Gas market in the UK and its enviable reputation amongst its customers, as providers of complete supply solutions for piping and instrumentation valves.

HSP has become known for its quality service offering and these appointments will further enhance the company's strong reputation as a credible provider of world class valves.

Dennis brings a wealth of experience with him having worked in the valve industry in the North East for over 20 years. Furthermore, in the last ten years he has established and operated a branch of a major valve stockist in Teesside. In this role he built up an outstanding status for ensuring deliveries were made on time and that stock was maintained to suit local requirements.

Robin has already been with HSP for 12 years and during this time has built a reputation for responsiveness to customer needs and selecting products that meet client specifications.

Peter Everett, CEO of HS Pipeequipment comments, "I am particularly excited by the increase of our sales presence in the Teesside area. The addition of Robin and Dennis to our sales team will help us to continue the growth we have seen in our business in the region. Combined with our world leading products Ike Bonney Forge, Maxseal, Audco Ball Valves and Larsen and Tubro Gate valves, these appointments will ensure we build on our leadership position in the Valve Industry.

HS Pipeequipment has been operating for 30 years and represents a number of world-class manufacturers of valves. The company operates out of three modern, purpose built facilities each with a specific focus: the head office in Newbury manages major international business, the Aberdeen office looks after the North Sea sector and the Teesside office focuses on the UK Petrochemical Industry.

HSP has built a reputation for being the leading manufacturers' representative within the engineering contractor market in London and these appointments demonstrate HSP's continual commitment to offering exceptional level of customer support to the Petrochemical Industry in the UK.
