

## **APPOINTMENT RELEASE**

**May 2008**

### **H.S.Pipeequipment appoints Engineering Manager**

H.S. Pipeequipment (HSP) is a leading stockist and distributor of valves to the oil, gas and petrochemical industry. The company represents a wide range of the world's leading valve manufacturers. H.S. Pipeequipment (HSP) has appointed Gordon McNair as their Engineering Manager. Gordon will be responsible for providing technical support to HSP staff and customers.

Commenting on the appointment, H.S. Pipeequipment CEO, Peter Everett said, "In the last five years Gordon has played a major role in the development of H.S.Pipeequipment as a leading supplier of actuated valve packages. He has project managed over £20 million of actuated valve packages for our customers. Gordon has an outstanding reputation in the industry for attention to detail and professionalism. We are delighted that he has taken on this broader role as Engineering Manager."

In his new role, Gordon will have technical oversight of all HSP activities and provide 24-hour support to customers. Further responsibilities will include the evaluation and review of suppliers and the running of HSP's central documentation team. The company prides itself on its world-class customer care. Gordon will have a clear role to help the company maintain and improve these standards.

Commenting on his new role Gordon said, "My aim is to enhance H.S. Pipeequipment's position as one of the leading suppliers to the Petrochemical, Oil and Gas industries".

H.S. Pipeequipment continues to build its organisation to improve its service levels and performance for all our customers.
